

American Safety Insurance

» healthcare

We are...solutions for specialty risks. We are...ASI Healthcare. Bringing more than 25 years of experience in underwriting and administering liability products to the healthcare marketplace, our product portfolio provides customized, innovative solutions to our healthcare brokerage partners and their clients.

We are...

Service-oriented

While we are proud to offer a quality product that includes the financial security of an A.M. Best "A" rated carrier, we understand the importance of providing superior customer service carries equal, if not greater value. Our partners rely on our service so they can, in turn, provide outstanding customer service to their clients. Our service pledge includes:

- Responding to all submissions within 24-48 hours of receipt
- Providing premium indications within 24-48 hours of receipt of complete submission
- Issuing all policies within 48-72 hours of binding, regardless of the presence of post-binding subjectivities

Flexible

Our healthcare underwriters work together with our partners to provide tailored solutions for every client... and we don't belabor unnecessary details either. Our applications are among the shortest in the industry, and our document requirements are few.

Creative

Do you have a unique risk that requires a creative solution? Our healthcare underwriters are experienced in developing creative product structures that can save your clients money while addressing their needs.

Consultative

Our highly knowledgeable staff can answer your questions and will go the extra mile to collaborate on solutions that address the respective needs of your clients.

Reliability

When your client becomes the recipient of a lawsuit, they should expect their insurance company to protect their interest. Our experienced, in-house claims department works closely with your client and expert defense counsel to manage their claim to the best possible outcome.

Partnership-driven

We realize the importance of relationships and are driven to provide you with the best product and service in the market. To that end, we strive to build long term, synergistic relationships with our partners.

...give us a call. Put us to the test!!!

We are..."the People Behind the Paper"
