

We are...solutions for specialty risks. ASI was one of the pioneers in the environmental insurance industry and today, we boast more than 20 continuous years of providing environmental insurance coverages. Our experience and underwriting expertise is one of the main reasons that some of our insureds have been with us since the beginning! The benefit of doing business with ASI is that we have some of the most knowledgeable underwriters in the industry, offer specialized loss control programs and claims management services.

Policy Specifics

EnviroStar™ is ASI's flagship product, primarily for small- to medium-sized environmental contractors and consultants. It combines commercial general liability coverage with pollution legal liability in one convenient policy. Environmental consultants can also get professional liability coverage included in their EnviroStar policy. Non-environmental contractors (those who generate more than 50% of revenue from non-environmental services) can obtain separate contractor's pollution coverage through ASI.

ASI can offer increased project specific limits for individual projects with contract information, i.e. contract cost, scope of work and job duration.

EnviroStar policies are written on an ISO general liability occurrence form (CG0001 12 04), which provides coverage for on- or off-site bodily injury, clean-up costs and property damage arising from the operations of the policyholder at the project site. Occurrence or claims-made pollution coverage is available for sudden and gradual pollution. Professional liability is on a claims-made basis. Premiums begin at \$2,500 with self-insured retentions starting at \$2,500.

Optional Coverages

Incidental mold remediation coverage is available, as well as prior acts coverage, extended reporting periods, environmental impairment liability, products pollution liability and coverage for pollution arising from transportation performed by the policyholder.

Submission Requirements

Completed and signed ASI Environmental Services Application (available at www.amsafety.com), five years of loss history and company information or statement of qualification. Please contact an underwriter for more details.
